(54) Title: MOBILE RENDERING DEVICE AND METHOD PROVIDING CONTEXT AWARE POWER SAVING

(57) Abstract: A wireless detachable rendering device (1) having a display (10) and a wired network connection (14) to a data server (16) is equipped with a local storage means (11) such as a HDD. When device (1) is docked in a stand, data to be rendered on display is in a best-effort like fashion loaded via the wired connection into the storage means (11). Thus data is available for undocked use of device (1). Power consumption is reduced as use of the wireless connection is avoided.
